NordicTrack GX 2.0 Exercise BikeNordicTrack GX2.0 Exercise Bike comes with a Contact Grip HR monitor and 18 built-in workouts, giving you the convenience of an easy-to-track workout session. This exercise bike also has 20 digital resistance levels with SMR technology. NordicTrack GX 2.0 Exercise Bike Specifications Trail: 60 L x 22.5 W x 41 H 275 Lbs Weight Capacity: This bike holds up to 275 pounds of SMR™ Silent Magnetic Resistance: This smooth, frictionless resistance system allows you to adjust the intensity of your workout without interrupting your workout. 20 Digital Resistance Levels: To burn more calories, increase intensity and improve muscle tone, simply adjust bike resistance. With the simple click of a button, you can choose from 20 different resistance levels for more results! California Prop 65 Warning: WARNING: This product contains one or more chemicals known in the state of California to cause cancer, birth defects or other reproductive harm. Guarantee: This bike has a lifetime frame warranty, 1-year-old parts and a guarantee of labor. NordicTrack GX 2.0 Exercise Bike Features Oversized, Adjustable Padded Seat: This adjustable seat is bigger and cushier than most to ensure that you have a comfortable workout. With vertical and horizontal adjustments, you can find a perfect fit! Pedals with adjustable straps: Adjustable straps create stability to keep your feet safely placed on the pedals, allowing you to focus on designing and getting results! 18 Built-in workouts: Get the workouts and results you want with 18 built-in workouts that automatically adjust bike resistance to increase intensity and burn more calories. Simple navigation makes it quick and easy to choose the right workout! iFit Live™ compatible: Get smarter workouts and faster results with iFit Live™. Featuring workouts powered by Google Maps™, training with Gillian Michaels and automatic resistance control, this wireless technology is the ultimate workout experience! Now you can customize your own fitness program, get automatic workout downloads and manage your online profile. Requires iFit Live™ a wireless module that is sold separately. Buy iFit Live™ year subscriptions and get a module for free giving you access to Google Maps™, training programs and more! Google and Google Maps are registered trademarks of Google, Inc. Grafxx™ Display: Take training from typical to inspiring. This eye-catching display tracks your speed, time, distance, pulse and calories burned to stay on top of your workout! CardioGrip™ heart rate monitor: make the most of each workout by tracking your heart rate with sensors built right into the steering wheel. They Ensure that you are in the right training area for your purposes. Adjustable steering wheel: Find the best position for you with a dual adjustable steering position. With a placement fit, you can create the best shape to enhance each workout and stay comfortable! Comfortable! Music port for iPod®: Go to the tact of your favorite music with this built-in sound system. Connect the iPod®, or MP3 Player, to the Interplay music port™ for unparalleled sound quality. With the iPod® on the console shelf, it is within easy reach and leaves the controls right at your fingertips. iPod is a trademark of Apple, Inc., registered in the United States and other countries. iPod® included. Intermix Acoustics™ 2.0 Sound System: Enjoy your favorite media with this built-in sound system that produces a wide range of frequencies and a rich, aligned sound. Transport wheels: Built-in wheels make moving this bike from one place to another fast and easy. The latest cost of the NordicTrack GX 2.0 Exercise Bike will be updated soon. NordicTrack GX 2.0 Exercise Bike Owner Guide, Instruction Machine and User Guide Note: Most of the sites, stores or shopping portals listed above, sell NordicTrack GX 2.0 Exercise Bike with discounts and other exciting offers. There is a possibility that some of the above websites are not selling The NordicTrack GX 2.0 Exercise Bike now. Toughtrain.com is responsible for such cases or cases. Also we do not recommend the seller for the NordicTrack GX 2.0 Exercise bike and the buyer must buy from where he/she gets the best deal with the quality of the products, services and on-time delivery (shipping). Give feedback, reviews or comments on: The NordicTrack GX 2.0 is the primary model, the first in the NordicTrack series of vertically stationary bikes. It is also the cheapest indoor cycle from this manufacturer. No matter that it costs less than \$250 for the sale that we found for you (see below), it offers innovative wireless technology iFit Live featuring exercise powered by Google Maps. It also has a compatible music port for the iPod, integrated with a built-in sound system. Plus 18 motivation built workouts that automatically adjust resistance... The GX 2.0 is very well made, stable and surprisingly quiet. It is equipped with a Silent Magnetic Resistance system with 20 digital resistance levels. Many reviewers noted that the place is very inconvenient. Yes, a little, but it's okay. For the price it's worth, we can't expect it to perform like a \$500 bike. It is equipped with an oversized seat with horizontal and vertical adjustment. It also has a dual position adjustable steering wheel with built-in sensors that monitor your heart rate. We think it's a very quiet and strong cycle of exercise. The GX2.0 delivers the robust reliability you'd expect in a high-tech simulator. But, be careful when you shop for a simulator - you get exactly how much you pay! Where to buy NordicTrack exercise bikes on The price, as you know, the price and terms of purchase depend on the store where you place your order. Surprisingly, the official website is not the cheapest place to buy NordicTrack bike exercises (unless you are from EURO). Their orientation is to sell their own through large retail chains. We suggest you order directly from AMAZON. There you will find better deals compared to other websites. While the NordicTrack GX2.0 vertically exercise bike is an attractive model with many cool-sounding features, it won't make any featured lists to buy. The High Resolution Grafxx bike™ LCD tracks your speed, time, distance, calories burned and heart rate. At 18 pre-programmed workouts, choose between weight loss, aerobic, endurance or performance-focused programs. The console is battery-powered. Specifications on NordicTrack GX2.0 vertically exercise bike: SMR™ Silent Magnetic Resistance 18 Training Program Compatible Music Port for iPod® w/dynamics Intermix acoustics™ 2.0 iFit Live Sound System™ CardioGri™ Heart Rate Monitoring Pedal with Adjustable Weight Of Straps Max User - 275 lbs Dimensions: 41L x 25.5W x 60H Guarantee: Lifetime Frame, 1-Year Parts and Labor Wireless Network Required. The module is sold separately. Buzz UPDATE: The GX2.0 is no longer available. Check out the new NordicTrack model to carry bikes for comparable ones to choose from. NordicTrack GX2.0 bike exercises reviews are mixed. Those users who didn't expect much in terms of quality say that they are satisfied with this vertical bike, while others have reported problems with missing parts in the field, and that NordicTrack's customer service response time leaves much to be desired. On the other hand, they like the adjustable height of the seat, the stable frame and the easy-to-use display. Cons Of NordicTrack GX2.0: The fan is so weak that it costs nothing, the speakers are so-and-so, the pulse handles on the steering wheel don't give accurate heart rate readings, and you need to put out \$20 for a power adapter or spend a lot of money on D-battery to power the console. If you connect your iPod, you will pass through these 4 batteries pretty quickly. Finally, the iFit Live feature isn't needed on a cheap bike - they had to use the money to install the best components - and included a power cord! Our Take This model is similar to the Proform NoX2 upright, another ICON Fitness product made at the same factory. While the GX2.0 is a good bike, for \$299 you should check out the bestselling models from Schwinn and Stamina that get much better reviews from consumers. NordicTrack GX2.0 vertically exercise bike is not the worst of the cheap ICON bikes (Weslo probably wins this title), but you can buy the best bike and thus avoid the disappointments you will have with this.
